Location: The sale will be held at Saskatoon Livestock Sales (5 miles west of Saskatoon on Hwy 14)

Date & Time: Thursday, December 17, 2020 @ 1:00 pm CST. **Sale Day Phone:** (306) 382-8088

Air Travel: Saskatoon Airport is served by all major airlines - check with your travel agent for further details. We will be happy to look after you, but please give us sufficient time if you require assistance.

Terms: The terms of the sale are cash or cheque, payable at par at the sale location. The right of property shall not pass until after settlement has been made; no invoicing of buyers in attendance, unless previous arrangements have been made. Every animal sells to the highest bidder and in cases of disputes, the auctioneer's decision will be final. Announcements from the auction block will take precedence over the printed matter in the catalogue. Current exchange rates will be announced sale day. All monies are in Canadian funds.

Phone, Mail, Wire Bids: Bidders unable to attend the sale may phone, wire, or mail their bids and instructions to the sale manager, auctioneer, or special representatives. Bids must be received in sufficient time prior to the sale.

Breeding information: All cattle of breeding age are guaranteed to be breeders. All calfhood vaccinates are noted in the catalogue. Any export tests will be arranged after the sale, at the seller's expense. The standard guarantee as endorsed by the Canadian Shorthorn Association will apply.

Pedigrees: The Canadian Livestock Records Corporation certificate of registration will be furnished with each animal sold, including calves by side of day, duly transferred to the purchaser after payment has been made. Proper instructions must be provided at the conclusion of the sale. Extensions granted on order bids only. Costs incurred due to incorrect transfers will be borne by the purchaser.

Insurance: Agents will be in attendance to insure your purchases. We strongly recommend that insurance is purchased for full value.

Delivery: Every assistance will be given in getting your purchases home. Each animal becomes the risk of the purchaser as soon as sold.

Errors: All announcements at sale time, written or oral, supercede any written material in the catalogue.

Liabilities: Shorthorn Alliance, their consignor, sale staff and representatives accept no responsibility for any accidents that occur. All persons attend the sale at their own risk. It is understood that the Saskatchewan Shorthorn Association is acting only as a medium between buyer and seller and is not responsible for any failure on the part of either party to live up to his obligations. Neither does the Saskatchewan Shorthorn Association assume any financial obligations to collect or enforce collection of any monies between parties and any legal action that may in exceptional cases be taken must be between the buyer and the seller. Saskatchewan Shorthorn Association assumes no responsibility for any credit extended by the seller to the buyer. The buyer must look to the seller for fulfillment of all guarantees and representations made hereunder.

Muridale Maple 313G is a daughter sired by a bull that was purchased by Warner Ranch, Wyo. The Muridale Raw Hide 6E progeny have a small birth weight, but do not stay small. They develop into long, deep-bodied cattle that weigh well. They are the kind we like, the type that will work for you. Pasture-exposed to Muridale Thailand 6F from June 27 to Aug 20. Pregnancy checked to calve in April. Could be carrying your next herd sire.

Muridale Jessie 315G is a powerful, long-bodied heifer. The Saskvalley Bonanza have influenced cattle throughout North America and have massive body depth. Jessie 315G is no exception; I think highly of this bred heifer because she is the definition of quality. Her Bonanza dam has done well for us over the years. Pasture-exposed to Muridale Gainer 302G from June 27 to Aug 7. Pregnancy checked

191H has been a standout since day 1. She is bold sprung and has great natural muscle expression. She is sure to become a maternal powerhouse with tremendous capacity and a flawless udder like her dam who always weans one our best calves. As a bonus, she is white as snow just like her sire which means she is bound to give you some flashy calves! 19H's half brother is a herd sire currently being used in the Muridale herd.

This flashy roan heifer is an eye catching sweetheart that is sure to turn a lot of heads. She is soft made, elegant in design, and has a natural feminine look. Her dam is one of our top cows raising the high selling Shorthorn at the 2019 Manitoba Bull Test Station Sale. 182H will certainly follow suit producing great calves for years to come. 182H comes from a proven cow family and she is sure to be a female you will want to display in your front pasture.

When a good one is born you just know it, and Rosie is that rare diamond. She is coming from the very top end of our heifer pen and outcross genetics to most breeders. She comes from the Argentine Sensation, Hector 1777 and a first time calf heifer I purchased out of the Agribition sale in 2018 from Sandy Reid of RK Cattle Co as a heifer calf. Her dam did an exceptional job of raising this little lady and you can't help but appreciate her from any angle; big boned, easy fleshing with natural muscling, strong top, big hiped and just a power house of a female. If you're in the market for some outside genetics and a female that is extraordinary, then put a star beside this young female who has the right things going for her.

Fancy, fancy and did I mention fancy redneck roan heifer? Well here she is and they don't come any more prettier front ended than this girl. This middle of February heifer was born a twin to another heifer and she's always been the one to catch your eye every pasture visit. Coming from the Cathy Joyful's of Earl Mc Corrison already tells you this female is going to make a cow. If you're in the market for a junior prospect or just wanting to add some color and flare to your heifer pen, then take a good look here!

A sweetheart of a heifer off a first time calver that you can't over look! This end of March red roan heifer has junior prospect written all over her. Sweet front end, smooth made, hairy and just a quiet disposition. She has a pedigree to back her up and from a cow family that will turn her into a foundation female. Don't miss the chance to grab a hold of her and have some fun on the show road!

We purchased her dam in the Agribition sale in 2013 as a bred heifer from the Thompson's and it was one of the best decisions I made Dad make. The Claudia's are an easy keeping, no worry and the type of female the cattle industry is after. This deep red heifer checks all the boxes; broody but feminine, big barrelled, strong set of feet and legs, easy fleshing and an attractive female. Her dam and sisters are gorgeous udder and are great mother cows and I have full confidence she will follow in their footsteps. So if you're in the market for a solid red heifer that will not disappoint then here she is!
